

ZEOPRO™

THE ALL-PURPOSE PLANT FOOD, SOIL AMENDMENT, FERTILIZER
SCIENTIFICALLY DESIGNED, DEVELOPED & LICENSED by **NASA**

Zeopro is a distinctive and unique plant food, soil amendment and fertilizer combination which offers a unique gardening advantage through **NASA's** extensive zeoponic technology, research and science programs. Using **Zeopro** is like having **NASA's** scientists, botanists, and plant researchers solve your indoor & outdoor gardening problems for you.

For the first time, the Horticultural Industry will experience a truly new product...**NASA's** invention of a nutrient packed growing medium, plant food and high-performance soil amendment with a secret, patented, plant demand nutrient delivery system.

Used successfully on U.S. Space Shuttle Missions!

Zeopro is certified by the Space Foundation

Zeopro is an ecologically friendly product that enables indoor and outdoor plants to determine when they need nutrition, delivering a balanced diet of slow released plant nutrients.

ZeoPro is a truly new, proven & tested garden product!

ZEOPROTM

A distinct and unique plant food, soil amendment and fertilizer combination developed, patented and exclusively licensed from **NASA**.

It's like having **NASA's** scientists, botanists, and plant researchers solve your indoor & outdoor gardening problems for you.

For the first time, the Horticultural Industry will experience **NASA's** quest for a light-weight, nutrient packed growing medium and high-performance soil amendment with a secret, patented, plant demand nutrient delivery system.

Used successfully on several U.S. Space Shuttle Missions.

It's not rocket science...
just smart gardening!

Retailer inquiries welcomed.

ZeoPro is certified by the Space Foundation

ZeoPro, unlike any other conventional fertilizer, is a combination growth medium, fertilizer, and soil amendment that enhances plant growth because of its patented nutrient delivery system. One of its primary ingredients is a slow release form of phosphorous and other key elements developed by the National Aeronautics and Space Administration (**NASA**).

ZeoPro PRODUCES AWARD
WINNING ROSES

ZeoPro PRODUCES GIANT
PUMPKINS TOO!

Through scientific, space age technology, **ZeoPro** will enhance any soil, even clay or sandy soils with poor nutrient retention.

ZeoPro performs best when blended into natural soils, commercial or consumer specialty potting mixes.

ZeoPro is so unique that its "on demand" technology allows the plant to determine when it needs nutrients, so you don't have to.

Use **NASA's** Space Age Technology to Improve Gardening and The Environment.

ZeoPro is used by some of the largest commercial growers in the United States.

ZeoPro performs well indoors and outdoors for: flowers, vegetables, tropicals, houseplants, seedlings, hanging baskets, water gardens, interiorscapes, window boxes, roof-top gardens, container gardening, cactus, annuals, perennials, roses, orchids, hydroponics, trees and shrubs.

Key Technical Advances and Benefits of **ZeoPro**...

SAFE & EFFECTIVE FOR ALL PLANTS

Cactus

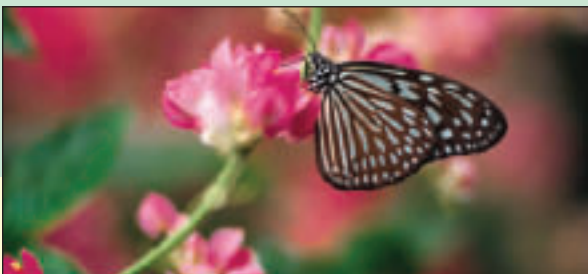

Vegetables

Water Gardens

Hostas

Ecologically Friendly, Safe & Non-toxic

Reduce fertilizer requirements by 50% to 75%.

ZeoPro delivers a balanced diet of slow released plant nutrients.

ZeoPro is a superior growth medium and soil conditioner combination, as well as a fertilizer delivery system.

Acts as a reservoir for the nutrients which are slowly released "on demand."

It holds a long lasting reservoir of nutrients for greater nutrient retention.

Zeolite based fertilizers are known to be "intelligent fertilizers" due to their high cation exchange capacity and porosity.

A high efficiency delivery of nutrients to the plants.

Eliminates transplant shock. **ZeoPro** will not burn the plants' roots.

Establishes a replenishable & balanced nutrient supply within the root zone.

Provides a buffer from environmental stress through a more resilient, developed root zone.

ZeoPro is free of plant-toxic elements.

Ask for **ZeoPro** at your favorite Retailer or Garden Center

Since the dawn of the space era, the world's best engineers at **NASA** and other space agencies have been developing advanced technologies that fuel space exploration and also result in a number of applications that improve life on Earth. The Space Certification Program is pleased to certify **ZeoPro** with **NASA's** plant food technology while improving gardening and the environment.

Advanced Soil Science offers:

- **ZeoPro** is certified by the Space Foundation
- You Buy Only The Quantity You Need
- You Choose How to Order & When
- Flexible, Generous Credit Terms
- Extensive Shipping Resources
- A Large Fulfillment Operation in Fort Worth, Texas
- No Minimum Order
- Free Web Site Listing—Free Advertising
- Your Total Satisfaction, 100% Of The Time
- Shop With Confidence - A Secure Web Site to Place Orders
- For Easy, Hassle Free Ordering, Visit Our Web Site
- Attractive Packaging — Made in Germany
- Competitive Pricing
